

Markets: Wood, Pulp and Paper

Applications: paper mills, saw mills, board plants, wood chips, bark, broke belt, chipper end feed, planer belt, pulp belt, sander belt, tray belt & all other applications requiring moderate oil resistance

PREMIUM PRODUCT
Wood Master™ Supreme

STANDARD PRODUCT
WoodMaster™

ECONOMIC PRODUCT
NEW GKIII™

Features & Benefits

- ▶ Exceeds APRM standards for Grade 2 & MOR
- ▶ Strongest oil resistant products in the market!
- ▶ Maximized belt life
- ▶ Low cost per ton
- ▶ High performance at maximum operating tensions
- ▶ Strong adhesion values
- ▶ Excellent fastener holding
- ▶ High abuse resistance
- ▶ Consistently meets high quality standards of Fenner Dunlop
- ▶ Made in North America
- ▶ Supported by Fenner Dunlop's Standard Warranty
- ▶ Serviced & supported by Fenner Dunlop's vast & experienced distribution network

Competitive Comparisons

To prove that our wood products are formulated to yield greater service life than the competition, Fenner Dunlop performed a series of tests on key competitors in the wood products industry. Below are our findings:

WoodMaster™ Supreme

- ▶ Significantly greater rip resistance
- ▶ Significantly better tear resistance
- ▶ Significantly superior abrasion resistance
- ▶ Significantly better adhesion values
- ▶ Higher safety factor

WoodMaster™

- ▶ Greater rip resistance
- ▶ Better tear resistance
- ▶ Superior abrasion resistance
- ▶ Better adhesion values

Expanded & improved product offering!

Low cost per ton!

Market: Log Handling

Applications: slasher decks, log drops, debarkers in and out feeds, chipper in feeds, drum discharge

PREMIUM PRODUCT LogMaster™

Features & Benefits

- ▶ Exceeds ARPM standards for Grade 2 & MOR
- ▶ Best defense against cutting, gouging & oil saturation
- ▶ Maximized belt life – low cost per log
- ▶ Superior impact & abuse resistance
- ▶ Increased skim gauges enhance energy absorption & belt resistance
- ▶ Specifically engineered carcass construction for enhanced crosswise rigidity
- ▶ High performance at maximum operating tensions
- ▶ Strong adhesion values
- ▶ Excellent fastener holding
- ▶ Consistently meets high quality standards of Fenner Dunlop
- ▶ Made in North America
- ▶ Supported by Fenner Dunlop's Standard Warranty
- ▶ Serviced & supported by Fenner Dunlop's vast & experienced distribution network
- ▶ Available in 3 and 4 ply constructions

Competitive Comparisons

To prove that LogMaster™ is formulated to yield greater service life than the competition, Fenner Dunlop performed a series of tests on key competitors in the log handling industry.

Below are our findings:

- ▶ Superior adhesion strength
- ▶ Greater impact resistance
- ▶ Increased safety factor
